- **12th - 70% - (CBSE) From MVM Shahdol MP**
- **10th - 72% - (CBSE) From Oasis Sainik School Hanumangarh Raj.**

PROJECT

Bubble Game - Visit   1 week

Built a game using **HTML**, **CSS**, and **JavaScript** where users interact with numbered buttons. The game displays a value, and users must press the button with the matching number. Correct selections increase the score, while incorrect choices decrease it. The game determines win or loss based on the user's performance

College Website - Visit   1 Month

Developed a comprehensive college website as a major project during the final semester of my BCA program, successfully completing it within one month using **HTML**, **CSS**, **JavaScript**, **PHP**, **SQL**, and Bootstrap.

Tencent Reimagine - Visit   1 week

I created a gaming website for a hackathon, this project took one Week to complete. I re-imagined the website with a new look and feel to make it more exciting for users. I focused on theme, to improve the design. Using **HTML**, **CSS**, **JavaScript**, **GSAP**, and **Canvas**, we made the site highly interactive and responsive on all devices. This project taught very valuable skills in web development and collaboration

QR Code Generator - Visit   1 week

I created a QR code generator using **Flutter**, **Firebase**, and **Dart** to offer users a unique feature: they can generate custom QR codes that, when scanned, direct others to the user's website.

Spotify Clone - Visit   2 week

This clone contains almost all functioning like **play**, **pause**, **loop**, **seeking**, **volume control**,
